Laboratory Protection

Biosafety Cabinet

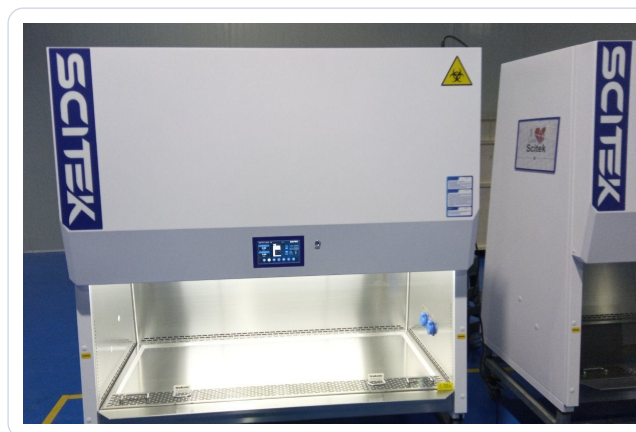

No. 01

生物安全柜

Class laboratory biosafety enclosure for handling materials that require personnel, product, and environmental protection. Features an LCD status view and glazed working chamber suitable for clinical and research laboratory use.

Key Information

- Different sizes and workspaces available — contact for details
- LCD control / status display
- Glazed front viewing window
- Applications: clinical labs, research, sample handling

Infusion Therapy

Portable Infusion Pump

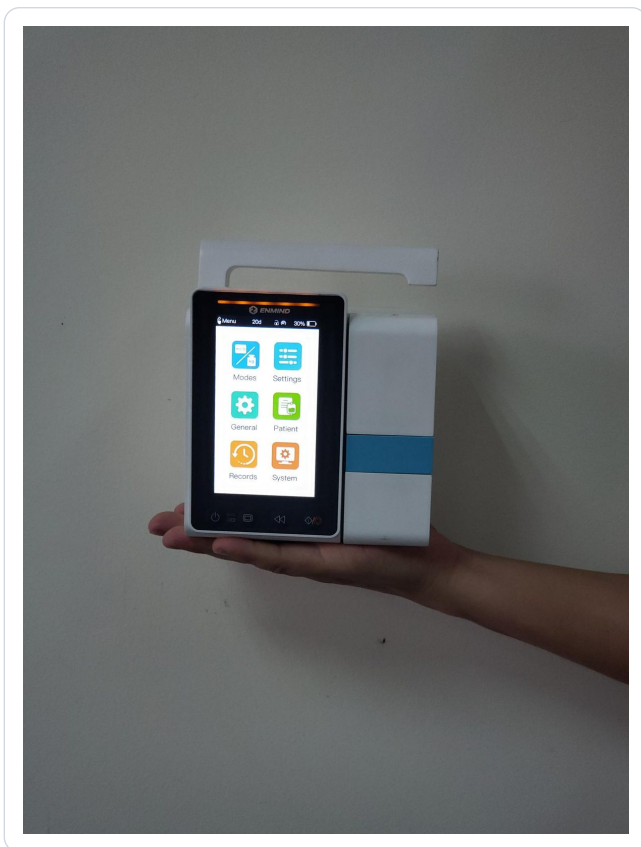

No. 02

便携式输液泵

Compact portable infusion pump for controlled IV fluid delivery in wards, ambulances, and clinical settings. Clear display and compact housing for bedside or mobile use.

Key Information

- Category: Portable volumetric infusion pump
- Intended for controlled IV fluid administration
- Compact, portable form factor

Operating Theatre / Imaging

X-Ray Bed (C-Arm Compliant)

No. 03

C型臂兼容X光床

Radiolucent patient table designed for C-arm fluoroscopy and general X-ray procedures. Supports patient positioning during interventional and diagnostic imaging.

Key Information

- Category: C-arm compatible X-ray / fluoroscopy bed
- Radiolucent tabletop construction
- For interventional and diagnostic imaging suites

Operating Theatre

Electric Hydraulic Operating Table (Lithotomy)

No. 04

电动液压手术床（截石位）

Electric hydraulic operating table configured for lithotomy and general surgical positioning. Multi-section tabletop with powered adjustment for OR procedures.

Key Information

- Category: Electric hydraulic operating table
- Lithotomy-capable positioning
- Multi-section padded tabletop
- For operating theatre use

Operating Theatre

OT Smoke Evacuator RD70

No. 05

手术室烟雾净化器 RD70

Surgical smoke evacuator for operating theatres, medical beauty clinics, and dental clinics. Foot-pedal control with filter clog / replacement alarm and bottom exhaust.

Key Information

- Model: RD70
- Power: 140 W
- Voltage: 110 V / 220 V (110 V needs extra fee — ask customer service)
- Airflow: 145 m³/h
- Inlet: $\Phi 75$ mm
- Weight: 16 kg
- Cabinet height: 695 mm; Arm reach ~1400 mm; Base ~412×250 mm
- Features: foot pedal; filter clog/replacement alarm; bottom exhaust

Cold Chain Storage

Blood Bank Refrigerator

No. 06

血液冷藏箱

Medical blood bank refrigerator for transfusion departments and blood storage. Upright glass-door design with digital temperature monitoring.

Key Information

- Model: XC-380L
- Size availability — contact for details
- Contact for other cold-chain storage solutions
- Digital temperature monitoring panel
- Caster-mounted for department mobility

Cold Chain Storage

Plasma Freezer

No. 07

血浆冷冻箱

Upright plasma freezer for blood bank and laboratory plasma storage. Model DW-FL90.

Key Information

- Model: DW-FL90
- Category: Plasma freezer / ultra-low temperature plasma storage
- Size availability — contact for details
- Contact for other cold-chain storage solutions

Cold Chain Storage

Pharmacy Medicinal Refrigerator

No. 08

药品冷藏箱

Pharmacy and medicinal refrigerators for temperature-controlled storage of pharmaceuticals, vaccines, and reagents. Available in single-door glass-front and related upright configurations.

Key Information

- Category: Pharmacy / medicinal refrigerator
- Different sizes available — contact for more info
- Glass-door upright designs for visibility
- Suitable for pharmacies, clinics, and hospital pharmacies

Dermatology / Therapy

PDT LED Photodynamic Light Therapy Machine

No. 09

PDT LED光动力治疗仪

LED photodynamic therapy (PDT) light system for clinical aesthetic and dermatology applications. Multi-wavelength LED panel with articulated arm for targeted facial or body treatment sessions.

Key Information

- Category: LED photodynamic therapy device
- Articulated arm with LED treatment panel
- For dermatology / aesthetic clinic use

Endoscopy

Endoscope Storage Drying Cabinet

No. 10

内镜储存干燥柜（立式悬挂）

Vertical hanging endoscope storage and drying cabinet for safe storage of flexible endoscopes after reprocessing. Supports clean, organized storage in endoscopy departments.

Key Information

- Category: Endoscope storage / drying cabinet
- Vertical hanging storage configuration
- For endoscopy reprocessing rooms

Endoscopy

Horizontal Endoscopic Drying Unit

No. 11

卧式软式内镜储存干燥柜

Soft endoscope storage and drying cabinet with automatically controlled drying. Stored endoscope channels connect to the cabinet gas-injection system, and the cabinet maintains positive pressure during storage to support hygienic holding after reprocessing.

Key Information

- Category: Soft endoscope storage / drying cabinet
- Horizontal tray-style storage with drying function
- Automatically controlled drying; positive-pressure storage
- Channel gas injection during storage
- For endoscopy departments after reprocessing

Endoscopy

Endoscope Transfer Trolley

No. 12

内镜转运车

Dedicated trolley for safe transport of endoscopes between procedure rooms and reprocessing areas.

Key Information

- Category: Endoscope transfer trolley
- Mobile transport between OR / endoscopy and CSSD

Endoscopy

Fully Automatic Endoscope Cleaning & Disinfection No. 13

全自动内镜清洗消毒机

Fully automatic endoscope washer-disinfectors with chemical immersion high-level disinfection (HLD). Sealed chamber with leak test, sterile rinse, and air/alcohol dry. Typical cycle about 18 minutes. 15" touch screen, automatic enzyme/disinfectant dosing, self-disinfect function, built-in printer. Power: AC 220 V 50 Hz.

Key Information

- ZH/JXD-ZDA (single): 700×710×1150 mm; 1 scope; 1500 VA
- ZH/JXD-ZSA (dual): 1290×710×1150 mm; 2 scopes; 3000 VA
- Chemical immersion HLD; sealed chamber; leak test
- Sterile rinse; air/alcohol dry; ~18 min cycle
- 15" touch screen; auto enzyme/disinfectant dosing
- Self-disinfect; built-in printer; AC 220 V 50 Hz

ZH/JXD-ZDA (1 scope)

ZH/JXD-ZSA (2 scopes)

Cleanroom / Hospital Logistics

Auto Open Pass-Through Window Box

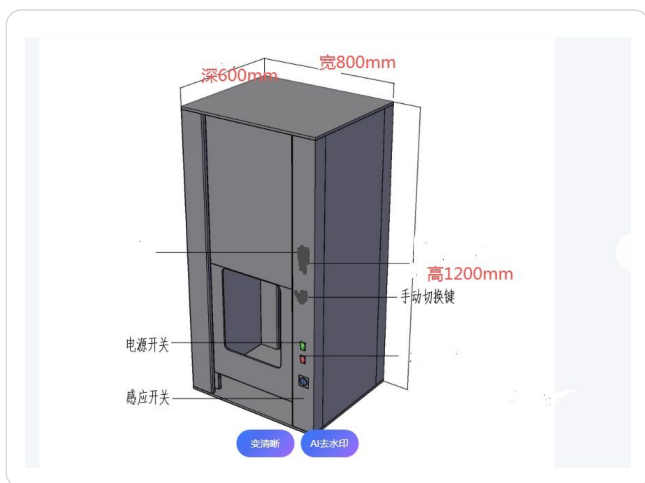

No. 14

自动开启传递窗

Interlocked pass-through window box for transferring materials between clean and less-clean zones while limiting cross-contamination. Auto-open style suitable for pharmacy, CSSD, and cleanroom corridors.

Key Information

- Category: Auto-open pass-through transfer window
- Customization available
- For cleanroom, pharmacy, CSSD, and OT transfers

Cleanroom / Hospital Logistics

Manual Pass Box

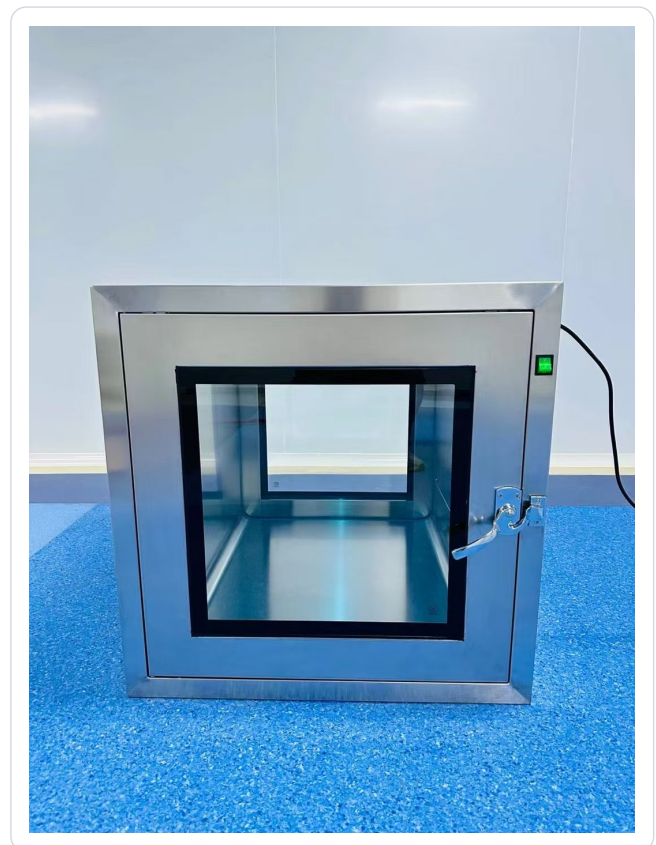

No. 15

手动传递窗

Stainless-steel manual pass box with viewing window for transferring materials between rooms while supporting controlled environments. Suitable for hospital, laboratory, and cleanroom corridors.

Key Information

- Category: Manual pass-through / pass box
- Stainless-steel construction with glass viewing window
- Manual latch operation
- Customization available

Operating Theatre

OT Cabinet

No. 16

手术室器械柜

Operating theatre instrument and supply cabinets available as freestanding and wall-fixed (flush) variants for sterile and semi-sterile storage near the OR.

Key Information — Freestanding

- Optional casters for easy moving
- Customization available
- Glass-door visibility of contents

Key Information — Wall-fixed / Flush

- Wall-fixed / flush-mount configuration
- Customization available
- For operating theatre and CSSD areas

Freestanding

Wall-fixed / Flush

Hospital Furniture

Stainless Steel Storage Cabinets

No. 17

不锈钢储物柜

Medical stainless-steel storage cabinets for organized storage of supplies, instruments, and consumables in wards, clinics, and treatment rooms. Shown in 4-door and 2-door configurations.

Key Information

- Customization as per customer requirements
- Also available as single-door and two-door variations
- 4-door and 2-door configurations shown
- Ward / clinic supply storage

**4-Door****2-Door**

Operating Theatre / Clinic

Surgical Chair

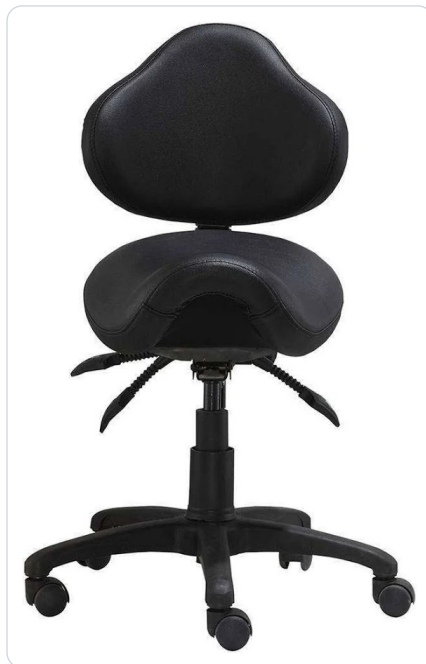

No. 18

手术椅 / 诊疗椅

Adjustable surgical / procedure chair designs for clinical examinations and minor procedures. Supports patient positioning with a stable mobile base; additional design variants shown.

Key Information

- Category: Surgical / procedure chair
- Seat color and design customization available on request
- Adjustable positioning; clinic and minor procedure use

Emergency / Nursing

High Strength ABS Emergency Trolley

No. 19

高强度ABS急救车

Crash cart / emergency trolley in high-strength ABS with multi-drawer organization, side accessory rails, and caster mobility for emergency rooms and wards.

Key Information

- Material: High-strength ABS body
- Multi-drawer medication / supply organization
- Side rails for accessories and sharps containers
- Caster wheels for rapid response mobility

Emergency / Nursing

Emergency Transfer Trolley

No. 20

急救转运车

Transfer trolley for moving emergency patients within and outside the hospital. Height-adjustable stretcher platforms with safety straps, side rails, and caster mobility.

Key Information

- Intended for transfer of emergency patients within and outside the hospital
- Multiple specifications available — contact for details
- Safety straps and side rails; caster-mounted

Hospital Logistics

Rack Trolley

No. 21

多层推车

Multi-tier rack trolley for distributing linens, supplies, and instruments across wards and departments. Available with ABS baskets or wire frame baskets.

Key Information

- Size customization available
- Option of ABS baskets and wire frame baskets available
- Caster-mounted for ward logistics

Hospital Furniture / Neonatal

Baby Cot

No. 22

婴儿床

Hospital baby cot / bassinet with transparent bassinet and mobile trolley base for maternity and neonatal wards. Clear sides for infant observation.

Key Information

- Category: Hospital baby cot / bassinet
- Multiple color options available
- Transparent bassinet with observation sides
- Mobile trolley base; maternity and neonatal ward use

Hospital Furniture

Hospital Furniture Solutions

No. 23

医院家具解决方案

All kinds of hospital furniture solutions are available as per request — including hospital beds, bedside cabinets, overbed dining tables, companion armchairs, patient lifts, ward storage, and related ward furniture.

Key Information

- All kinds of hospital furniture solutions available on request
- Examples shown: hospital bed, bedside cabinet, overbed table, companion armchair, patient lift, ward cabinet
- Contact for configurations, colors, and quantities

Hospital Bed

BEDSIDE

Bedside Cabinet

Dining Table

Overbed Table

Patient Lift

Companion Armchair

Ward Cabinet

Ward Communication

Nurse Calling System

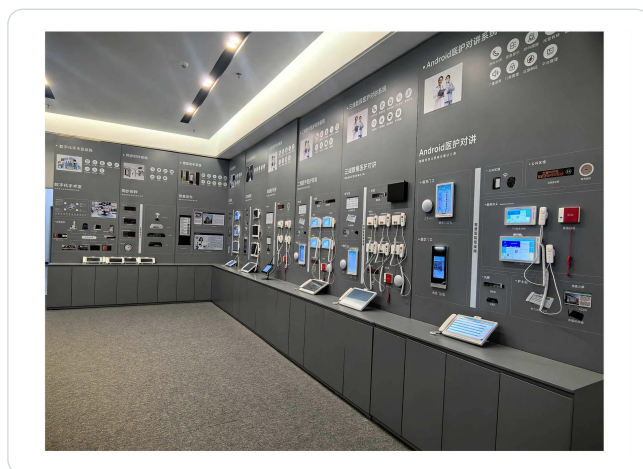

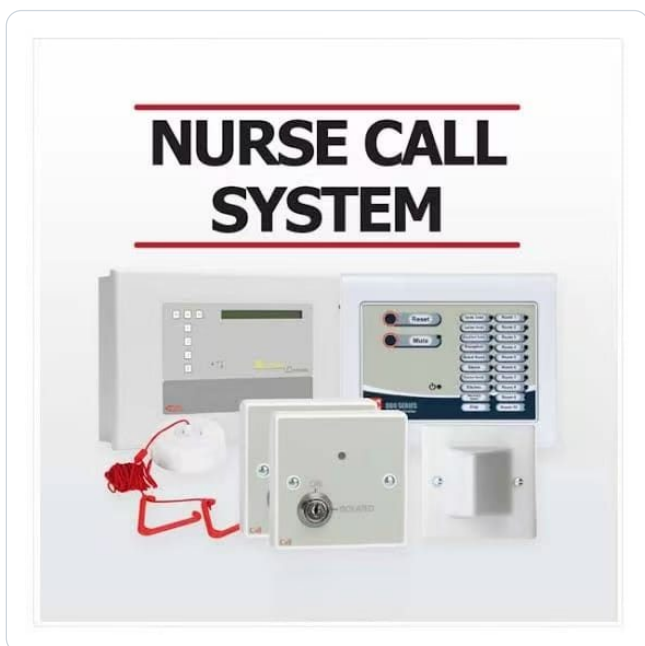

No. 24

医护呼叫系统

Fully integrated online nurse calling system solutions available for hospital wards and clinics — covering nurse station displays, bedside call points, pull-cord units, and corridor indicators.

Key Information

- Fully integrated online nurse calling system solutions available
- Nurse station displays, room call points, pull cords, corridor lamps
- Contact for system design and project quotation

Neonatal Intensive Care

NICU Machines

No. 25

新生儿重症监护设备

Neonatal intensive care equipment for hospital NICU departments. Three representative machines are shown with brief introductions.

Key Information

- NICU equipment suite — contact for configurations
- Three representative machines shown

**Neonatal Transport Incubator**

Mobile transport incubator with transparent canopy and scissor-lift trolley for transferring newborns between departments or into transport vehicles while maintaining a controlled environment.

**Neonatal Radiant Warmer**

Open radiant warmer with overhead heater and clear-walled infant bed, providing thermally regulated access for newborn intensive care and procedures.

**Infant Incubator**

Closed infant incubator with access ports, digital environmental controls, and drawer storage for stable temperature/humidity care in the NICU.
